

## SADDLE CONE via WHAKAPAPA RIDGE

**260 Series Map:** S20 Ohakune and T20 Ruapehu

**Top050 Map:** BJ34 Mt Ruapehu

**NZ Grid GPS:** Geodetic Datum 1949

**NZTM GPS:** NZTM on WGS84

**How to get to START:** Exit Taupo on SH1 down the lake to Turangi then you have the choice:

- Follow the Desert Highway (SH1) and turn off right on to SH46 for Rangipo.
- Left to SH47 at the one and only T-junction
- Turn off SH47 on to SH48 signposted for Whakapapa
- Pass the Chateau on the left and park in the car park on the right which has toilets and is quite safe for vehicles compared to some other car parks.

**Rough description:** A fairly strenuous walk in the moderate to fit category lasting four to six hours including breaks. It starts at the Chateau (**WP01**<sup>1140masl</sup>) in Whakapapa, goes up the Whakapapa Ridge to the SE on to the Pinnacles Ridge then descends to the NE to cross the Wairere Stream and re-ascends on to the next ridge. From this ridge Saddle Cone (**WP06**<sup>1524masl</sup>) can be seen off to the SE below Ruapehu and starts with a steep descent – which has to be re-ascended on the return. The route home is then via the Wairere Stream and the Tama Lakes track.

**Detail:** Turn right out of the car park opposite the Chateau then cross the road and turn up behind the public toilets a few metres uphill from the Information Centre. The start is on a neat gravel track (marked Ridge Track) and just within the bush line but within 10 minutes the track degrades a bit with some large, anti-hobbit sized steps just before a semi-round table from where there are open views. At this point the track goes slightly to the right and soon enters a tussock area. Then it is essential to remain to the right (SW) side of an eroded edge where the silt-like vegetated cap towers above – do not enter this area as progress is very slow – just meander along the edge.

Soon there is a break and the cap vanishes but there is a small isolated remnant ahead, head for this and continue ascending the ridge heading in a SE direction. Another 20 minutes of steady ascent reaches the upper part of the Whakapapa Ridge (**WP02**<sup>1435masl</sup>) with an obvious stream line lying to your left (E) below. Continue walking more or less parallel to this stream line heading (SE) then slowly, as the slope increases, head more or less due south to get on to the lower reaches of Pinnacle Ridge. Once on the Pinnacles Ridge head NE for a relatively easy descent to cross (**WP03**<sup>1358masl</sup>) the Wairere Stream. Once over the stream Saddle Cone lies to the SE but stay on a NE heading as this gives a quick, easy ascent on to the next ridge. Now head SE and in after just over a kilometre (**WP05**<sup>1583masl</sup>) a good view of Saddle Cone can be seen further to the SE and below the slopes of Ruapehu.

There is a steep descent off the ridge into the relatively flat looking area which lies to the N of Saddle Cone, in winter this descent takes very little time if the right equipment is carried and the skill level allows glissading. However, remember that this slope has to be ascended on the return. Once down it is possible to cut through the rocky area ahead or this area can just be skirted keeping the rocks on the left. Saddle Cone is then approached and ascended with the top being reached in something around 4 hours.

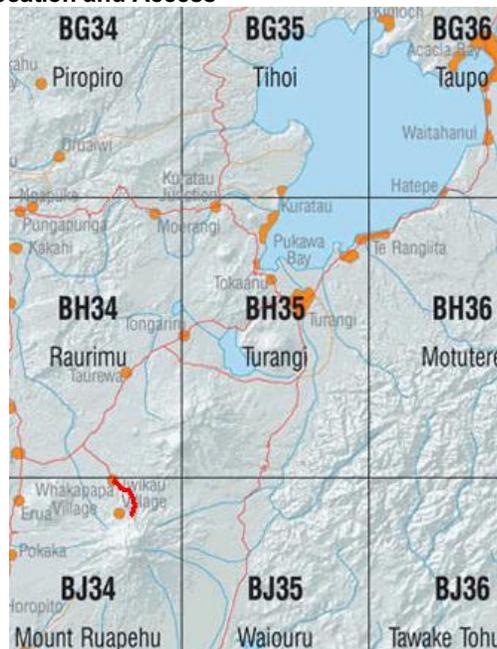

The return route can be done in around two hours but there is that wicked ascent to get back on to the first ridge – in winter steps had to be cut in the hard packed snow / ice. Once on the ridge head N then slowly swing to the NW till the point where the ridge was ascended is found (**WP07**<sup>1419masl</sup>) and descend down the relatively steep slope to the edge of the Wairere Stream in the region of where it was crossed earlier..

From here follow the rudimentary track which parallels the true right bank of the stream until the bridge (**WP08**<sup>1204masl</sup>) carrying the Tama Lakes track is reached. Cross the bridge heading W and within the hour the small car park (**WP09**<sup>1135masl</sup>) behind Tongariro Chateau is reached and the sealed road leading past the Chateau to the car park is followed.

**Panorama from Ngauruhoe to Ruapehu**

### Location and Access

The map above shows the tramping route at the top part of sheet BJ34 whilst the access roads can be determined from the map
